

BUZZ IS OFTEN A **NASTY CASE OF HUM**

THE HUM GARDEN

SCALE: 1:100

There have been numerous accounts of a persistent low frequency Hum that annoys most, torments some, and is not heard by all. Although often attributed to seismic activity, the Hum's actual source is a mystery. It is a disturbing phenomenon known to cause sleeplessness as well as other pathological behaviours. It is thought that with great focus one can find great calm.

This garden has a Hum. Its reverberations can be felt underfoot, making it seem to originate from below ground. The plant life above is prone to quaking and shaking. Reports of an ambiguous form snaking its way through the grass and billowing against the horizon allude to something more ominous; suggesting that the Hum's source is neither seismic nor mechanical.

The Hum is to be broadcast across the site using a speaker system that is concealed within the "hum lines" that radiate across the garden. The Hum is of low frequency between 30-50 Hz sounding much like a distant diesel engine. The channels radiate out across the site in concentric elliptical arcs that reference the graphic icon for radio/wi-fi transmission.

PLANT LIST

"Plants that move with the slightest breath evoke a lurking wraith, plants with ominous forms increase a sense of foreboding, while diaphanous, wispy plants hint at a ghostly presence."

PLANTS SELECTED TO **QUIVER, QUAKE & BILLOW**

- | | |
|--|--------------------------------|
| Populus tremuloides - | Quaking Aspen |
| Briza media - | Quaking grass |
| Bromus | Nodding seedheads |
| Chasmanthium latifolium - | Spangly seedheads |
| Gaura lindheimeri 'Whirling Butterflies' | Flowers appears to whirl |
| Hordeum jubatum - | Short silvery grassheads |
| Lunaria rediviva - | Silvery seedheads |
| Nassella tenuissima - | Nodding needles |
| Persicaria amplexicaulis alba | Flower shape appears to dance. |
| Veronica longifolia | Flower shape appears to dance. |
| Stipa pulcherrima - | Long Silvery grassheads. |

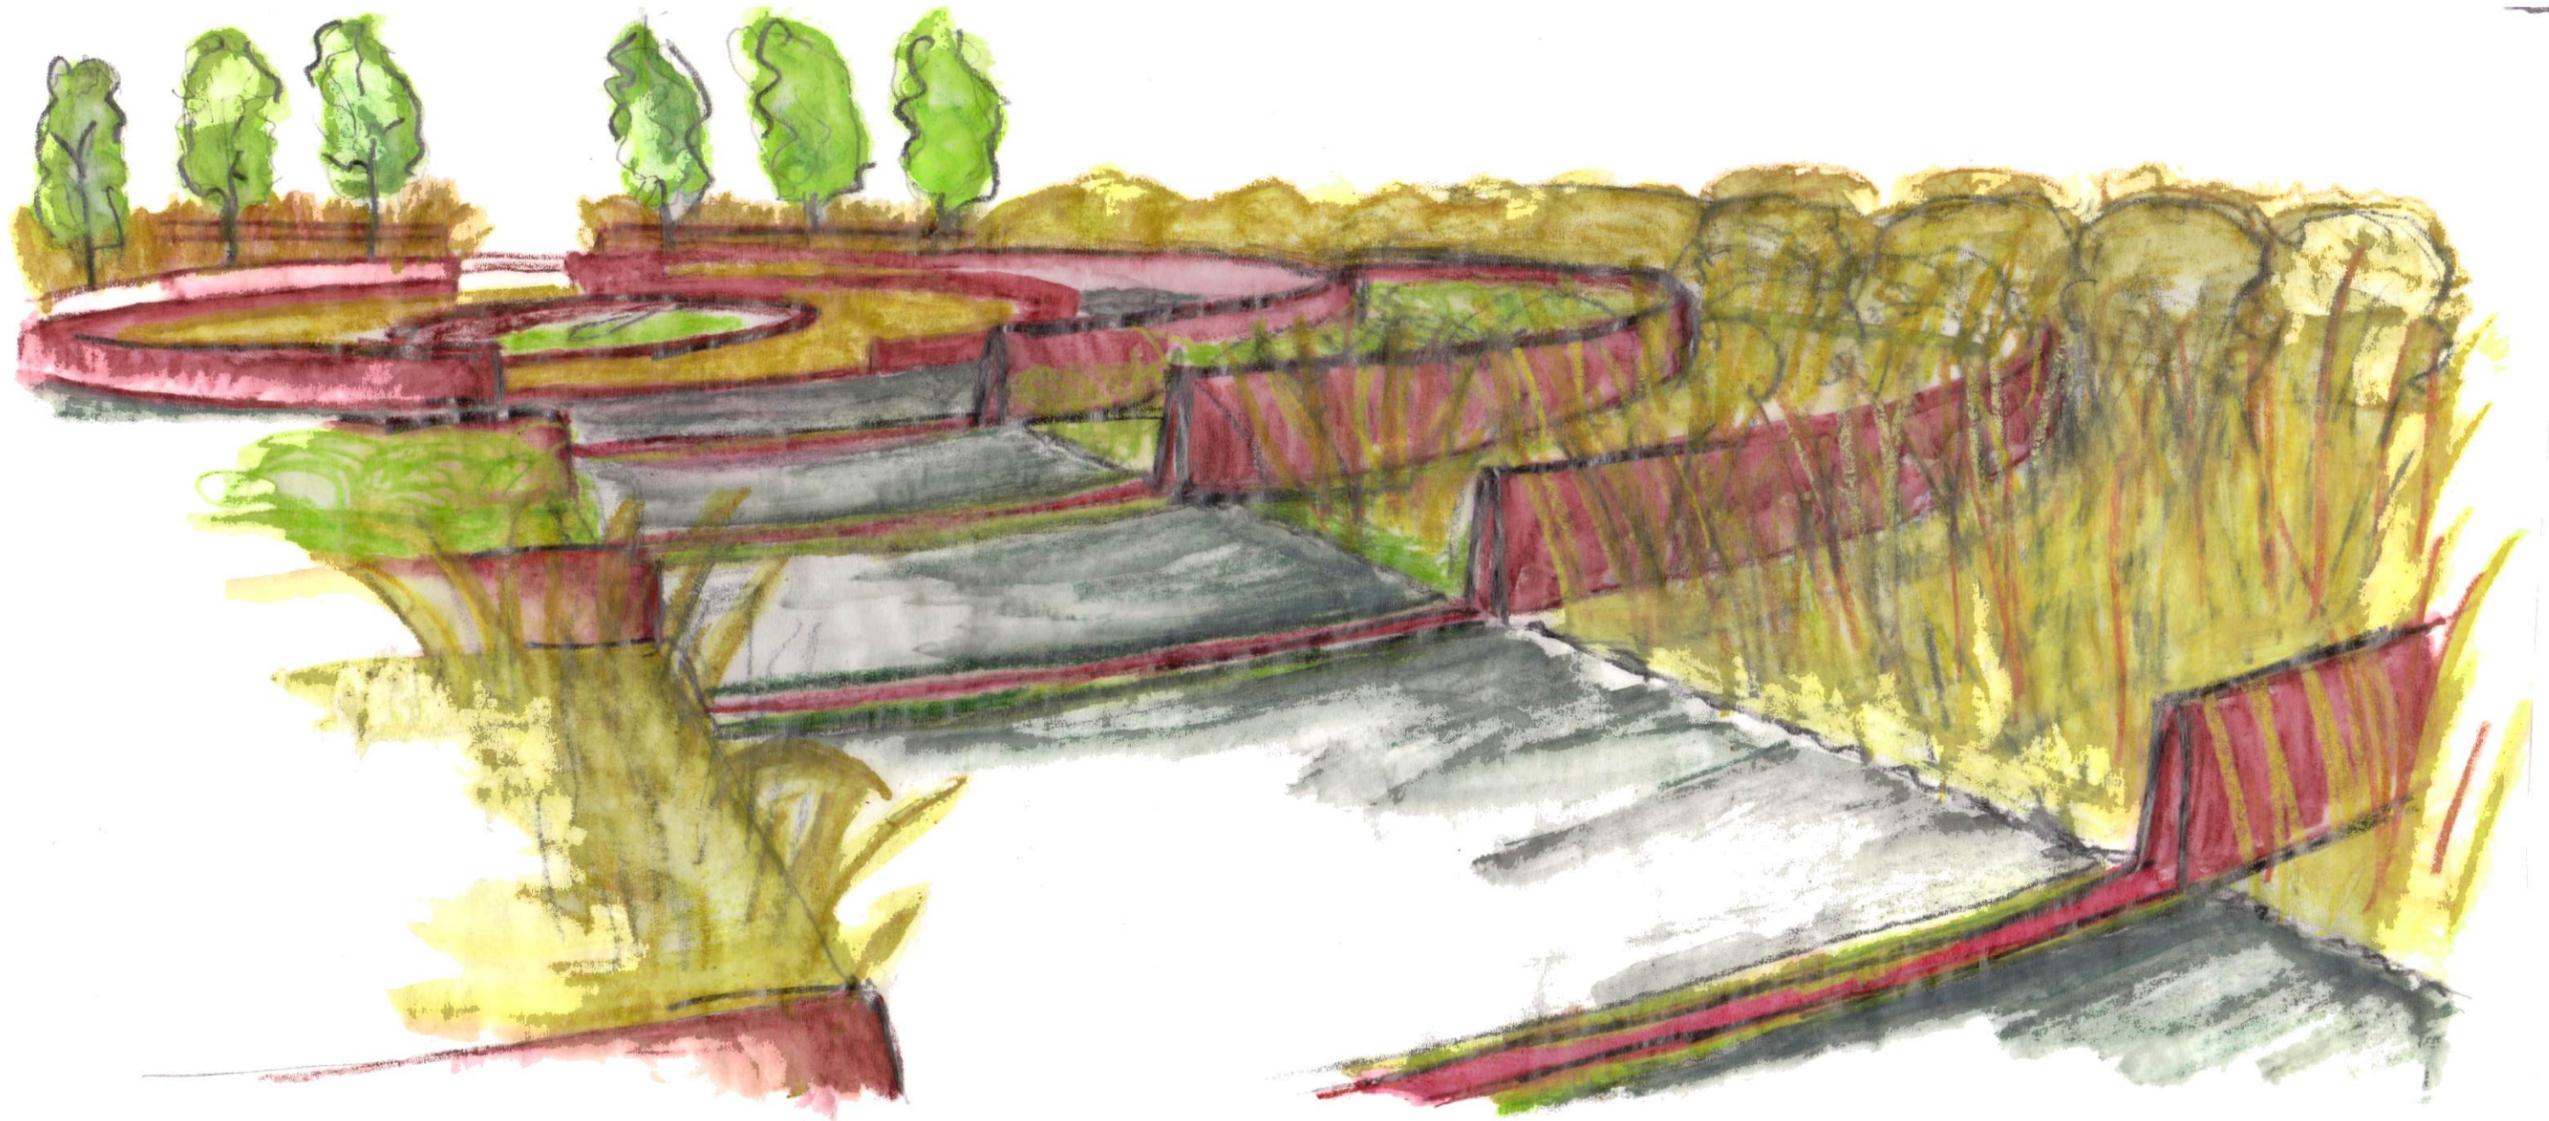

PLANTS SELECTED TO **CREATE A HAZY VEIL**

- Deschampsia caespitosa "Goldtau" - Tufted hair grass
- Knautia macedonia "Mars Midget"
- Molinia caerulea spp. arundinacea 'Transparent'
- Pennisetum alopecuroides "Tall Tales"
- Perovskia atriplicifolia "Blue Spires"
- Sanguisorba menziessii
- Sporobolys heterolepsis
- Stipa gigantea
- Verbena bonariensis

PLANTS SELECTED TO **SET AN OMINOUS OVERTONE.**

- Allium giganteum - Giant spheres, Seedheads to remain on stalk for season.
- Bouteloua gracilis - Strange flaglike seeds, dark colour.
- Echinops ritro 'Veitch's Blue' - Large spiky spheres, shattering seedheads
- Eremus x Isabella "Oase" -
- Eryginum bourgatti
