INTERNATIONAL GARDEN FESTIVAL - 16<sup>th</sup> EDITION

The 16<sup>th</sup> Edition of jardins de métis International Garden Festival theme of "Buzz" is interpreted as creating a multi-sensory experience based aromatic garden through enhancing each visitor's active and perceptive interactions with the natural environment. The AROMA : GRAPHY garden proposal

engages the visitor's various levels of aromatic perceptions through dynamic interactions involving sight, smell, touch and cognitive creativity.

The sensory topography of aroma are represented by aromatic plantings composed of herbs and flowers (visual and aromatic

media), cedar room (neutralizing element) and scented water (interactive element.) The garden is designed to provide visually engaging spatial stratification, aromatically fragrant planting pallet, tactile opportunities of discovery and conceptual and physical interaction with planting

and water. The scented water interaction pools will provide opportunities for culmination of multi-sensory experiences and perceptions through scented water creation and physical interaction opportunities utilizing the garden's flowers and herbs on a daily basis.

The ephemeral and interac-

tive qualities of the AROMA : GRAPHY garden will provide dynamic and positive experiences for the festival visitors resulting in greater understanding and appreciation of our natural environment.
