

all W all SCAPE

Our walls, in a spiritual or political discussion, are sacred or used to keep out, protect, divide, all of which have strict rules on how to interact with them. **Wallscape** wants to break this image by building a wall with intentional holes where plants and people can overtake it. Some holes enable the visitors, big and small, to interact with the wall therefore transforming it into something playful. **Wallscape** is built out of 'green' gabions stacked one on top of another. On one side, the wall is straight with visible stones and on the other side, the wall is on an angle with steps, all covered with plants. Both sides are different however spontaneous encounters are made possible in or on the wall. The wall becomes a place where people meet / unify and not divide.

Wallscape where people meet, play and discover the beauty of landscape through a wall; At the same time, reflecting on the notion of a wall in a different light; A wall of forgiveness and sharing, joy and happiness, that brings togetherness with a future.

SITE LIMIT

Ramp: grid made out of recycled tires covered with seeded clovers

Passage no1: painted steel casing

Gabion (standard):
1m X 2m X 0.5m
used for step or seating format
with recycled tires carpet

Gabion (green):
1m X 2m X 0.5m, 60 degree angle
covered with moss and climbing plants

Sun shelter:
painted steel tubes with climbing vines

Retaining wall: made with standard gabions

Passage no2: painted steel casing

Lower level: grid made out of recycled tires covered with seeded clovers

GRAMINEAE GARDEN

BENCH: standard gabion with recycled tires carpet

Passage no3: painted steel casing

PRODUCT SPECIFICATION

Equipment

Gabions made by Maccaferri (sponsorship confirmed):
- Standard gabions
- Green gabions

Fill:

- Local stones
- Garden mesh
- Earth

Casings:

- Welded steel sheating 1/16"

Ground cover stabilizer:

- Flexi-grid sand saver by eco-flex, recycled rubber solutions

Plants

Sun shelter: Hedera Helix (English ivy)

Green gabion angled side : Minuartia verna 'Aurea'; Thymus serpyllum 'Coccineus'; Ajuga reptans 'Burgundy Glow'; Artemisia schmidtiana 'Silver Mound'; Aubrieta deltoidea 'Hendersonii'; Cerastium tomentosum; Gypsophila repens 'Rosea'; Lysimachia nummularia; Vinca minor 'Variegata'; Dianthus deltoides 'Flashing Light'; Sedum kamtschaticum; Sedum spurium.

Lichens : Nephroma arcticum; Peltigera aphthosa; Bryum pallens; Hedwigia ciliata; Ptilium crista-castrensis; Sphagnum magellanicum; Trichocolea tomentella; Bazzania trilobata

Ground cover : Clover seeds

Gramineae garden: Carex oshimensis 'Everillo'; Deschampsia 'Northern Lights'; Calamagrostis 'Karl Foerster'

elevation A: straight wall with visible stone
